

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

WS Guinness Sustainable Energy Fund (the "Fund"),

a fund within WS Guinness Investment Funds (the "Company") Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund.

Y Accumulation GBP Shares (ISIN: GB00BP5J6198)

Objective and Investment Policy

Objective

The Fund aims to provide investors with capital growth over the long term (at least 10 years), after all costs and charges have been taken, whilst investing at least 80% in sustainable energy companies that are helping to deliver the transition towards a lower carbon economy. Capital invested is at risk and there is no guarantee the objective will be achieved over any time period. Due to the Fund's sustainable investment objective, the Investment Adviser is likely to have limited exposure to certain sectors, including but not limited to healthcare, consumer staples and financials.

Investment Policy

At least 80% of the Fund will be invested in global equity securities of companies involved in the sustainable energy or energy technology sectors with a market capitalisation in excess of US\$500 million that: i) have at least 50% (majority) of their business activity helping to deliver the transition towards a lower carbon economy; and ii) do not conflict with any outcomes in respect of the sustainability objective.

Such equity securities include global shares (including emerging markets, securities convertible into shares, and (up to 5%) warrants.

A lower carbon economy is an economy whose energy system has falling carbon dioxide emissions, achieved through a combination of energy efficiency and lower carbon energy generation technologies. Sustainable energy includes, but is not limited to, energy derived from sources such as solar or wind power, hydroelectricity, tidal flow, wave movements, geothermal heat, biomass or biofuels or nuclear energy. Energy technology includes technologies that enable these sources to be trapped and also various manners of storage and transportation of energy, including hydrogen and other types of fuel cells, batteries and flywheels, as well as technologies that conserve or enable more efficient use of energy. Prior to investment, company ESG analysis is carried out to assess that a proposed

investment does not cause material negative environmental and/or social outcomes. Should the Fund invest in equity securities of companies that do not currently meet its sustainability objective they will not conflict with the sustainability objective of the Fund.

The Investment Adviser will monitor the investments held and will, using its discretion and acting in the best interests of investors, seek, at the timing of its choice, to dispose of those holdings where the company no longer meets the Investment Adviser's criteria for the investment universe. The Fund may invest in cash-like instruments, such as money market instruments, deposits, cash and near cash and up to 10% in collective investment schemes (which may include those managed by the ACD and its associates). Such investments are not intended to be more than 20% in aggregate of the value of the Fund. The Fund will have a concentrated portfolio and will typically hold between 20 and 40 stocks.

Other features of the Fund:

The Investment Manager uses its expertise to select investments for the Fund and has the discretion to invest without the need to adhere to a particular benchmark.

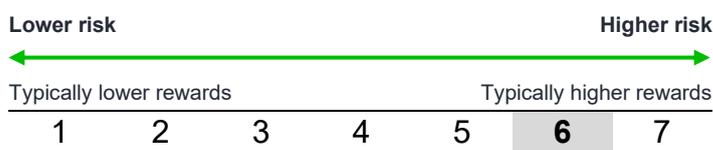

You can buy and sell shares in the Fund on each business day.

Any income generated from the Fund is reinvested and reflected in the value of your investment.

The Fund may use derivatives to reduce risk or cost or to generate additional capital or income at proportionate risk (known as "Efficient Portfolio Management"). It is intended that the use of derivatives will be limited.

Recommendation: This Fund may not be suitable for investors who plan to withdraw their money within 5 years. More information on the management of this portfolio can be found at www.waystone.com.

Risk and Reward Profile

This indicator shows how much the Fund has risen and fallen in the past, and therefore how much the Fund's returns may have varied. It is a measure of the Fund's volatility. As the Fund has less than 5 years history, this calculation incorporates the volatility of an appropriate benchmark index.

The higher a Fund's past volatility, the higher its position on the scale and the greater the risk that investors may have experienced losses as well as gains.

The Fund has been classed as 6 because its volatility has been measured as above average to high.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward profile shown is not guaranteed to remain the same and may change over time.

The lowest number on the scale does not mean that the Fund is risk-free.

The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.

- The Fund invests in global markets, with some regions being regarded as more risky.
- The Fund invests in emerging markets which may carry more risks than more developed jurisdictions.
- The movement in exchange rates may lead to further changes in the value of investments and the income from them.
- A limited number of investments may be held which has the potential to increase volatility of performance.
- There is a risk that any company providing services such as safekeeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.

For more information about the Fund's risks, please see the Risk Factors section of the prospectus which is available at www.waystone.com.

Charges for this Fund

The charges you pay are used to cover the costs of running the Fund, including marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	None
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out. In some cases, you may pay less. Please check with your financial adviser or distributor for the actual charges.

Charges taken from the Fund over the year

Ongoing Charges	0.67%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance Fee	None
-----------------	------

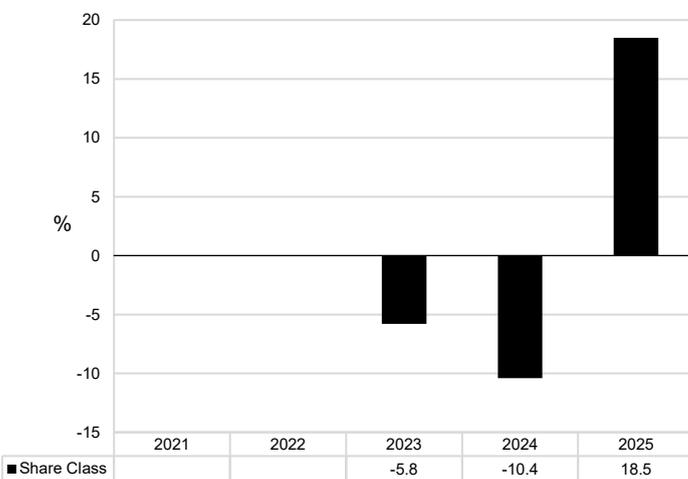

The ongoing charges figure is fixed at 0.67%.

It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.

Ongoing charges are deducted from capital which will assist the income yield but may constrain capital growth.

For more information about charges (including any charges applied to the offset dealing costs), please refer to the Company's Prospectus, available at www.waystone.com.

Past Performance

Past performance is not a guide to future performance.

The past performance in the chart is net of tax and charges but excludes any entry or exit charges that may apply.

The Fund was launched on 30 December 2022. This share class was launched on 30 December 2022.

Past performance is calculated in GBP.
