WS Epworth Climate Stewardship Fund for Charities (the "Fund"),

a fund within WS Epworth Investment Funds for Charities (the "Company")
Waystone Management (UK) Limited is the Authorised Fund Manager of the Fund.

Accumulation GBP (ISIN: GB00BMD3GM34)

Objective and Investment Policy

Objective

This Fund seeks income and capital growth over a minimum period of 5 years by investing at least 70% in the shares of UK Companies (UK based companies listed on the London Stock Exchange); and a carbon intensity, substantially lower (at least 15% lower, but better if possible) than that of the FTSE All Share Index.

Investment Policy

We use a climate stewardship approach which excludes companies that extract or refine fossil fuels and which have a material involvement (e.g. 20% of turnover), with supplying the fossil fuel extractives and refining industry with goods or services; seeks to minimise exposure to other companies that are fossil fuel intensive or are responsible for high levels of greenhouse gas emissions; engages with companies whose shares are held in the portfolio to encourage more action to reduce the risk of climate change; and excludes companies through ethical screening based on Christian principles. We can also invest in companies we believe will contribute to a transition to lower carbon emissions in the UK or globally and can hold other funds (including those managed by us) and cash/near cash. In addition to the list of excluded companies, The Portfolio Manager (Epworth) has an active policy of engagement with Companies to seek to improve corporate behaviours.

Other features of the Fund:

The Fund is actively managed. The Portfolio Manager uses its expertise to select investments for the Fund and has the discretion to invest without the need to adhere to a particular benchmark.

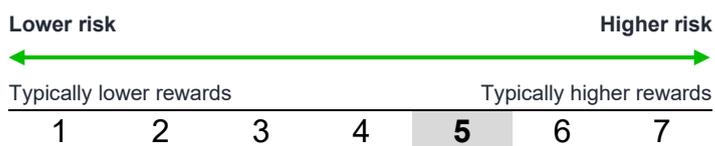

You can buy and sell shares in the Fund on each business day.

Any income generated from the Fund is reinvested and reflected in the value of your investment.

This Share Class is available for registered charities only.

Recommendation: This Fund may not be suitable for investors who plan to withdraw their money within 5 years. More information on the management of this portfolio can be found at www.waystone.com.

Risk and Reward Profile

This indicator shows how much the Fund has risen and fallen in the past, and therefore how much the Fund's returns have varied. It is a measure of the Fund's volatility.

The higher a Fund's past volatility, the higher its position on the scale and the greater the risk that investors may have experienced losses as well as gains.

The Fund has been classed as 5 because its volatility has been measured as above average.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward profile shown is not guaranteed to remain the same and may change over time.

The lowest number on the scale does not mean that the Fund is risk-free. The value and income from the Fund's assets may go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the Fund will achieve its objective and you may get back less than you originally invested.

- The Fund may invest in emerging markets which may be more volatile than developed economies and which have less well-developed regulatory systems and disclosure standards.
- In some market situations, it may be more difficult to sell the Fund's assets at a desirable price which may affect our ability to redeem investors' units.
- The Portfolio Manager may determine to invest part of the Fund's assets in smaller companies. These may be more difficult to sell than larger companies, with larger differences between their buying and selling prices. They are also prone to more rapid changes in their prices in volatile market conditions.

For more information about the Fund's risks, please see the Risk Factors section of the prospectus which is available at www.waystone.com.

Charges for this Fund

The charges you pay are used to cover the costs of running the Fund, including marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest
