

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

WS Guinness Asian Equity Income Fund (the "Fund"),

a fund within WS Guinness Investment Funds (the "Company")
 Waystone Management (UK) Limited is the Authorised Corporate
 Director of the Fund

**Z Large Investor Income GBP shares (ISIN:
 GB00BLGT0R42)**

Objective and Investment Policy

Objective

The Fund aims to provide investors with a combination of both income and capital appreciation over the long term (7 to 10 years).

Investment Policy

Under normal market conditions, at least 80% of the Fund will invest directly or indirectly in listed equity securities of companies of any market capitalisation which are incorporated, domiciled or listed in the Asia Pacific region or have the majority of their business in the Asia Pacific region (including emerging markets). Direct or indirect investment in equity securities shall include investment in any proportion in: shares (including those issued by investment trust companies and REITs), securities convertible into shares, depositary receipts, collective investment schemes investing in equities (up to 10%) and (up to 5%) warrants.

The Investment Adviser aims to invest in a portfolio of companies which, in the Investment Adviser's opinion, are likely to achieve returns on capital higher than the cost of capital, allowing those companies both to reinvest in the business for growth and to pay a dividend.

The Fund is actively managed and in selecting investments for the Fund, the Investment Adviser will take into account its Baseline Exclusion Criteria (as set out in section 12 of the Prospectus).

To the extent not fully invested in such companies, the Fund may invest in short-dated government bonds in the Asia Pacific region of at least investment grade rating (being bonds which have achieved or exceeded a minimum credit rating awarded by a credit rating agency). For temporary defensive management, the

Fund may also hold cash, near cash, money market instruments, units in money market funds or short-dated government bonds to protect the Fund from adverse market conditions and/or to manage large cash flows; accordingly at these times the Investment Adviser may hold a larger proportion of the Fund in these asset classes and in such circumstances, less than 80% of the Fund may be invested directly or indirectly in listed equity securities.

The Fund will have a concentrated portfolio and will typically hold at least 20 stocks.

Where the Fund invests in collective investment schemes, this may include those managed by the ACD and its associates.

Essential features of the Fund:

Investors can redeem units on demand, at the daily valuation point of 12 noon (UK time) when this is a normal business day in the UK.

For income units, any income received is paid out to you quarterly. For accumulation units, any income received is reflected in the price of units.

The Fund may use derivatives to reduce risk or cost or to generate additional capital or income at proportionate risk (known as "Efficient Portfolio Management"). It is intended that the use of derivatives will be limited.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money in the short-term (within 5 years). The Fund should be viewed as a medium to long-term investment only.

Risk and Reward Profile

Lower risk				Higher risk		
Typically lower rewards				Typically higher rewards		
1	2	3	4	5	6	7

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

The Fund has been classed as 5 because its volatility has been measured as above average.

As the share class launched on 15 July 2024, the indicator has been calculated based in part on the MSCI AC Asia Pacific ex Japan Net Total Return Index over the last five years (in total return and GBP terms).

The sub-fund is in the above risk category because it invests in shares.

The lowest category does not mean a fund is a risk free investment.

The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.

There is no guarantee that the Fund will meet its stated objectives.

A limited number of investments may be held which has the potential to increase the volatility of performance.

The Fund invests in emerging markets which may carry more risks than more developed jurisdictions.

The movements of exchange rates may lead to further changes in the value of investments and the income from them.

There is a risk that any company providing services such as safe keeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	None
--------------	------

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Exit Charge	None
-------------	------

Charges taken from the Fund over the year

Ongoing Charges	0.61%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance Fee	None
-----------------	------

The ongoing charges figure is fixed at 0.61%

It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.

Ongoing charges are deducted from capital which will assist the income yield but may constrain capital growth.

For details of the actual charges, please contact your financial adviser/distributor.

Past Performance

There is insufficient data to provide a useful indication of past performance to investors.

Fund launch date: 04/02/2021.

Share/unit class launch date: 15/07/2024.

Performance is shown inclusive of all charges, except entry charges.

Performance is shown on a total return basis (on the basis that distributable income has been reinvested).
