

# Non-UCITS retail scheme Key Investor Information

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## WS Canlife Diversified Risk Managed VI Fund (the "Fund"), A Accumulation, a fund within WS Canada Life Investments Fund II (the "Company") (ISIN: GB00BP5J8Y65)

Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund

### Objective and investment policy

#### Objective

To achieve growth in capital (an increase in the value of the Fund) after all costs and charges have been taken, over at least five years. The sub-Fund will seek to remain in risk profile 6 on a scale of 1 to 10, where 1 is the lowest risk profile and 10 is the highest risk profile. For further information on the approach to risk please refer to the Approach to Risk document on the Waystone website [www.waystone.com](http://www.waystone.com). There is no guarantee that the objective will be met over any time period and you may get back less than you invest.

#### Investment Policy

To invest in the following asset classes: bonds (which are loans to either a company or government that usually pay interest), equities (company shares), cash money market instruments (which are short term loans that pay interest) and alternative investments (including property).

The asset mix is tailored to its risk profile (which is provided by Defaqto an external risk provider. The Fund will have a strong bias to higher risk assets, such as equities over lower risk assets such as fixed income and cash. Between 40%-85% in equities, with no more than 10% in alternative investments. The Fund may also invest up to 10% of the assets by value directly in permitted transferable securities to gain exposure to the above asset classes.

The Fund can invest in equities issued by non-UK domiciled entities denominated in sterling or non-sterling, and will typically invest in sterling denominated assets which in turn may have exposure to non-sterling denominated currency.

Using the Strategic Asset Allocation (SAA) the Portfolio Manager constructs a diversified, actively managed portfolio, they may position the portfolio away from the SAA on a medium to long term basis, or to capture opportunities presented by shorter term market movements. In such instances the allocation of the portfolio will be kept consistent with achieving the Fund's objective.

The Portfolio Manager's views of the economic environment along with the absolute and relative risk-adjusted attractions of different asset classes is used to determine the mix of assets to invest in, they will adjust the asset allocation on an ongoing basis to reflect changes in the SAA and to take advantage of tactical investment opportunities.

Other features of the Fund:

- The Fund is actively managed. The Portfolio Manager uses their expertise to select investments for the Fund and has the discretion to invest without the need to adhere to a particular benchmark.
- The Fund may invest in other funds (including those managed by the Manager, the Portfolio Manager and their associates).
- At least 90% of the Fund will not be invested directly in the above assets, but by using other funds.
- Whilst the Fund can invest in different asset classes it may not have exposure to all asset classes at all times.
- The Fund can invest across different industry sectors without limitation.
- You can buy and sell shares in the Fund on each business day.
- Income from the Fund will be added to the value of your investment.
- Derivatives (whose value is linked to that of another investment, e.g company shares, currencies) may be used to manage the risk profile of the Fund.
- In extraordinary market conditions which could result in significant loss, the Fund has the ability to invest 100% in lower risk assets such as cash.
- Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Risk and reward profile

- This indicator shows how much a Fund may have risen and fallen in the past, and therefore how much a fund's returns may have varied. It is a measure of a fund's volatility. As the Fund has less than 5 years price history, this calculation incorporates the volatility of an appropriate benchmark index. The higher a fund's past volatility the higher the number on the scale and the greater the risk that investors in that fund may have made losses as well as gains.
- The Fund has been classed as 5 because its volatility has been measured as above average.
- This indicator is based on historical data and may not be a reliable indication of the future risk profile of this Fund.
- The risk and reward profile shown is not guaranteed to remain the same and may shift over time. The lowest number on the scale does not mean that a fund is risk free.
- The SRRI measure differs from the risk rating referenced in the Fund's Objective and name. Further details about the Fund's risk rating can be found in the prospectus.
- Counterparty Risk: The failure of a firm involved in a transaction with the Fund or providing services to the Fund may expose the Fund to financial loss.
- Property Fund Investment Risk: Property funds can become illiquid increasing the risk that a position cannot be sold in a timely manner or at a reasonable price.
- Changes in Interest Rate Risk: A rise in interest rates generally causes bond prices to fall.
- Credit Risk: The value of a bond may be affected by its credit rating, the lower the rating the higher the risk of the issuer not paying interest or repaying the loan.
- Liquidity Risk: In unfavourable market conditions, corporate bonds may be harder to sell in a timely manner and at reasonable prices, than in normal market conditions. This could have a negative impact on the value of the Fund. In extreme market conditions this could affect the Fund's ability to meet investors' redemptions.
- For more information about the Fund's risks please see the Risk Factors section of the prospectus which is available at [www.waystone.com](http://www.waystone.com).

## Charges for this Fund

The charges you pay are used to pay the costs of running the Fund. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
Charges taken from the Fund over the year	
Ongoing Charges	1.75%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The ongoing charges figure is based on expenses as at 15 October 2024. This figure may vary from year to year. The ongoing charges are taken from the capital of the Fund. It excludes performance fees, portfolio transaction costs, except entry/exit charges paid by the Fund when buying or selling units in other collective investment schemes.

You may also be charged a dilution levy (an amount to cover dealing costs incurred by the Fund) on entry to or exit from the Fund.

For more information about charges, please see the Company's prospectus which is available at [www.waystone.com](http://www.waystone.com).

## Past performance

- Past performance is not a guide to future performance.
